

Periodic Adverse Drug Experience Report (PADER)

Generated: 2026-08-16 18:51

Reporting Period

This Periodic Adverse Drug Experience Report (PADER) covers the reporting period from **2023-01-15** to **2023-03-05**.

Narrative Summary and Analysis

During the reporting period, a total of **3** Individual Case Safety Reports (ICSRs) were received. Of these, **2** were classified as serious and **1** as non-serious.

The most frequently reported adverse reactions were: Rash, Headache, Nausea. Among serious cases, the most commonly reported reactions were: Rash, Nausea.

No new safety signals were identified during this period that would warrant a change to the established benefit-risk profile. The types of adverse events reported remain consistent with the known safety profile of the product. Continued routine pharmacovigilance monitoring is recommended.

Summary Analysis of Cases

Demographics

Age distribution: 18-29 (1), 40-49 (1), 60-69 (1).

Sex distribution: Female: 2, Male: 1.

Reporting countries: US (1), DE (1), FI (1).

Reaction / Adverse Event Analysis

Most Frequently Reported Reactions

- Rash: 1 case(s)
- Headache: 1 case(s)
- Nausea: 1 case(s)

Most Frequently Reported Serious Reactions

- Rash: 1 case(s)
 - Nausea: 1 case(s)
-

Serious Cases / 15-Day Alerts

A total of **2** serious case(s) were reported during the reporting period.

All serious cases were assessed against 15-day expedited reporting thresholds. Cases meeting regulatory criteria were submitted within the required time-frame.

Trends and Important Observations

A total of **3** case(s) were received during the reporting period. No significant upward or downward trend in overall case volume was observed.

The adverse event profile remains consistent with previous reporting periods. No new safety concerns requiring immediate regulatory action have been identified. Routine monitoring will continue in the next reporting period.

This report was generated automatically by the GenAR PADER pipeline. All data is derived from Individual Case Safety Reports (ICSRs) submitted during the reporting period.
